SKILLS

- Programming: C, C++, Python, HTML, CSS, JS
- Networking: TCP, HTTP, DNS, UDP, IP
- Data Structures & Algorithms
- Computer Architecture
- OOP
- SQL
- Git / GitHub
- Linux
- React

WORK EXPERIENCE

- SECURITY GUARD – VPG (2023-Present)
- WAITER -ATZA SHUSHI BAR (2018-2019)

LANGUAGES

- Hebrew – Native
- English - Fluent

Or Bittoun

PROFILE

Second-year Computer Science student at Holon Institute of Technology (HIT) with a 90 GPA.

Passionate about software development and IT.

As part of my studies, I have taken courses in C programming, an advanced C programming workshop, computer communication networks, data structures and algorithms, and an introduction to data science. To further expand my skills, I also completed an online HTML5 and CSS, JS, React courses.

EDUCATION

B. Sc COMPUTER SCIENCE

Holon Institute of Technology

2023- present

GPA-90

HIGH SCHOOL

Ironi A

2013-2019

MILITARY SERVICE

Israeli Navy

2019-2022

Naval frontline combat soldier in the Missile Boat Fleet. Maritime navigator and Command Bridge station officer, responsible for naval navigation systems.

PROJECTS

Delivery Route Optimization App:

Developed in a 2-day hackathon a smart algorithm for real-time multi-order delivery optimization, outperforming common market solutions (e.g., Wolt/Uber Eats).

Built a working prototype with FastAPI backend. Currently expanding it into a full-scale product with the team.
